Re: # 2424, State vs. Teresa Gideon  
# 2425, State vs. Iven Gideon

Counsel:

I don't know any polite way to say it, so I'll say it directly: these task force officers aren't the trained observers they're supposed to be or they're liars. Although I haven't been to the cemetery in years, the reputation of this location for the past seven to ten years is well known in area where I live. I won't go into the entirety of that reputation, but suffice it to say that one simply can't go to Sand Hill Cemetery and not know that entry onto this adjacent property is forbidden and overtly discouraged by many Posted, No Trespassing, and Keep Out signs. The only disinterested testimony in this proceeding was entirely consistent with that reputation.

Accordingly, the officers were trespassers and the evidence must be suppressed.

Sincerely yours,

  
James E. Morgan  
District Judge
